CHANGES OR CANCELLATIONS

We cannot accept changes or cancellations on Mum cutting orders later than 30 days before specified shipping date.

Causes of Premature Budding of Chrysanthemum Cuttings During the Spring. How to Prevent it.

During the Spring, until May 1st, budding can occur, depending upon the variety and a temperature of 60 degrees or above.

To prevent setting of buds additional light can be given during the early Spring months. Use 60 watt bulbs, spaced four feet apart and about 30 inches above the plants. Use lights two hours each night until May 1.

LARGE FLOWERING VARIETIES

H—indicates hardy varieties.

P—indicates varieties suitable for pot plants.

Price: \$50.00 per 1000 for orders totalling 1000 cuttings and up, in multiples of 50 each. Please notice we offer all varieties at the same price. For orders totalling less than 1000 cuttings, or less than 25 of a variety, we charge slightly higher prices, see quotation on page 2.
